DR. BASSLEER BIOFISH FOOD FEEDING ACCORDING TO NATURE'S EXAMPLE

Fish consume their food in chunks. Because their mouths differ from species to species, food should be matched to their mouth shape and eating habits. The granulate range of DR. BASSLEER BIOFISH FOOD is adjusted to this wide variety by providing optimised granulates in sizes ranging from S, M, L, XL and XXL and 3XL.

The most popular granulate is the smaller pellet size M which sinks slowly, thus providing nutrients to all three water zones. This gives surface feeders, fish in the middle zone as well as bottom feeders alike a fresh and balanced diet.

DR. BASSLEER BIOFISH FOOD was developed by the well-known fish pathologist Dr. Gerald Bassleer. Due to the very special production process the particularly vitamins, proteins and trace elements are fully available.

The granulated DR. BASSLEER BIOFISH FOOD is upgraded by functional additives that are artisanal coated at low temperature after processing the granulate. All granulated foods contain valuable probiotics (*Pediococcus acidilactici*).

DR. BASSLEER BIOFISH FOOD does not contain any artificial colorants and provides an extraordinary high nutrient content. It is easily digestible and does not represent any stress to the quality of the aquarium water.

Pellet size S
0.2 - 0.5 mm
for fish < 2 cm

Pellet size M
0.5 - 0.8 mm
for fish > 1 cm

Pellet size L
0.8 - 1.2 mm
for fish > 5 cm

Pellet size XL
1.2 - 1.6 mm
for fish > 10 cm

Pellet size XXL
2.8 - 3.2 mm
for fish > 15 cm

Pellet size 3XL
6.5 mm
for fish > 20 cm

Fish like us

REGULAR

- Everyday's complete food with high protein level from wild caught Scandinavian fish

AÇAÍ

- With berries of the açai palm tree
- Extremely high nutritional value
- Enhances a natural strong, intense coloration

ALOE

- With *Aloe vera*
- Enhances the immune system and detoxifies the digestive process.

BABY+NANO

- For fish larvae, juvenile fish and nano aquarium fish
- Promotes a quick and vigorous growth.

CAVAR

- Exclusive super-premium food
- Tasty treat even with picky and delicate fish
- Luxurious alternative to frozen food

CHLORELLA

- With *Chlorella* algae
- Chlorophyll and nucleic acids foster the regeneration process
- Easily digestible - better water quality

FORTE

- With immune stimulants
- 10-day fitness treatment every three or four weeks

GARLIC

- With fresh natural garlic
- Especially for fish that have contracted disease and suffer from loss of appetite.

GREEN

- Premium food for herbivore fish
- Contains *Moringa oleifera* and *Chlorella* algae

GSE/MORINGA

- Contains grapefruit seed extract (GSE) and *Moringa oleifera*
- Antiseptic effect with citric acid, flavonoids, amino acids and anti-oxidants

HERBAL

- With peppermint, thyme, mugwort and chickweed
- Stimulating and antiseptic effect
- Skinny fish gain weight quickly

LAPACHO

- Contains bark extract of the lapacho tree *Tabebuia impetiginosa*
- Recommended especially to feed during a treatment against intestinal flagellates

MATRINE

- Contains matrine and oxymatrine from *Saphora flavescens* (Chinese: "Ku Shen")
- Part of BASSLEER-ANTI-ICH-METHOD

PUMPKIN

- With pumpkin seeds (*Curcubita*)
- Recommended during a treatment against intestinal worms

SHRIMP STICKS

- For ornamental shrimps and mini-shrimps
- High proportion of raw fibres

FLOCONS ALIMENTAIRES

- REGULAR FLAKE
- FLORA FLAKE
- EXCEL FLAKE
- FORTE FLAKE
